### Salmon Ponds

This was caught on a line set near the surface using a planner board.

### Steelhead Trout Vs Salmon

However unlike most trout, most salmon species spend most of their lives in salt water and are not usually found in fresh water on a regular basis. In these locations, there is more likely to be food and it provides cover so the trout can ambush the prey. In fact, both fish have tons of similarities, albeit differences are visible, too.

### Salmon Ponds

Tracking studies have shown this to be mostly true.

### When Trout and Salmon Spawn (and How To Tell If They Are)

Please call the STEP Program at 503 947-6232 or 503 947-6211 for details. These baits are 1-inch and are similar in size to the trout magnet baits which work awesome at catching trout. The basic key to success is choosing the correct lures and having lots of poles out that are set at a variety of depths.

### Trout and Salmon

There is a difference in their habitat, their maturing place, and even their migrating place. In the salmons, the mouth has some gray or black. The trout and salmon family is large.
