What are the key takeaways from the First Advance Estimates for 2020-21? In the case of Bihar, Uttar Pradesh and Madhya Pradesh, the data on respective fiscal variables from 2000 to 2001 also include data relating to Jharkhand, Uttarakhand and Chhattisgarh, respectively. In particular, we aimed at investigating two main open issues.

In fact, many studies propose different measures of the size of the formal financial system relative to economic activity, i. It is preferable to deduct these from sales since the sales figures would then reflect the actual mark-up made by the company on its cost of production. Debt sustainability analysis based on empirical estimation of inter-temporal budget constraint and fiscal policy response function in a panel data framework, covering 20 Indian states for the period 1980—1981 to 2015—2016, indicates that the debt position at the state level is sustainable in the long run.
