## “The Constitution in the Cultural and Political Imaginings of the American Public”

The idea of a revolutionary republic committed to equality at the time, only for white men started to erode as regional differences surfaced and the first generation of revolutionaries died out. Although the cornerstone for the National Archives building was laid in 1933, the Constitution and Declaration of Independence were not transported to the Archives until December 13, 1952. The deadline for submissions for the 2003 issue is June 30th.

## Imagination

There, the Muslim minority is being for the spread of the coronavirus.

## Is America a Myth?

The ideas and imagery of America face existential challenges—some with reason, some without—that no longer come only from the fringes. In 1810, a small group of settlers captured a Spanish fort in Baton Rouge and declared the creation of an independent Republic of West Florida; their capital was St.

## cfp

The Changing South, then, was most relevant to white Americans.
