## Diagnosing Uterine and Tubal Pathology in Infertility: Which Method is Best?

Women receiving fertility treatment have a slightly higher risk of an ectopic pregnancy. Psychosocial issues should be discussed by a physician with the couples in every visit.

## RCPA

Both of these can contribute to infertility. In some cases, the reproductive urologist can improve semen function by recommending certain lifestyle changes, by hormonal treatments, or by surgery.

## Pathology Outlines

A woman is rarely fertile beyond the age of 45.

## Diagnosing Uterine and Tubal Pathology in Infertility: Which Method is Best?

Fertil Steril; 36 4 : 433-45, 1981.
