The Basics of a Technology

For a brief overview of the features of Trial Director, see [and](#). JCUP is a not-for-profit limited liability corporation owned by the Louisville Bar Association.

Computers: The Courtroom of the Future

The goal is to persuade both the judge and jury of our case and to win.

CHAPTER 12 The Electronic Courthouse, Automated Courtroom, and Presentation Graphics

Other configurations involve multiple monitors around the courtroom for viewing by counsel and the parties, and the judge, jury, and witness. This also allowed for direct feedback from the lawyers on their technology needs in the design phase of the project. Documents were printed on site.

Supreme Court of Virginia Computers in the Courtroom Policy

Particularly as the use of experts and the breadth of their areas of scientific specialty has increased, it is all the more important that attorneys stay up-to-date on the legal technologies available to them, as it can assist in understanding complex ideas and issues.

How Technology Changes Legal Careers

Days might pass before typed transcripts were available. At every stage of the trial, there is a helpful technological solution that can be employed for better organization and strategy.

Supreme Court limits reach of computer crime law

In addition, unlike PowerPoint, trial presentation programs have the ability to search the trial database and access data quickly and efficiently. Courtroom Printing and Electronic Storage of Exhibits A color printer remains a staple of the technology-ready courtroom for printing exhibits on which witnesses have made electronic markings.

CHAPTER 12 The Electronic Courthouse, Automated Courtroom, and Presentation Graphics

There is no doubt about it. In addition, jurors may be absorbed with their own thoughts concerning what they consider important about the image they are viewing on their personal or shared monitor. The time-intensive process of reviewing and producing millions of pages of electronic information has spawned a new host of database management tools.
