## **Operating Room Nursing (CNOR) Certification Review Course**

The facility shall keep a resident's record after the resident is discharged as provided in RCW.

## **Standards of perioperative nursing. Clinical practice/professional performance**

The sole objective of patient safety in operating room shapes the nursing response fueled by a combination of training, behavior, various cultural backgrounds and leadership.

## **Good practices for patient safety in the operating room: nurses' recommendations**

The Operating room safe handling of every patient scheduled to have a procedure is closely monitored. The first course of action would be to induce a change in the administrative staff of units by the end of the month.

## **Operating Room Nursing**

Be a part of the process! Chapter RCW suspended —Effective date delayed until January 1, 1981.

## **Chapter 74.42 RCW: NURSING HOMES—RESIDENT CARE, OPERATING STANDARDS**

The department shall use casework services or other means to insure that adequate arrangements are made to meet the resident's needs. As I previously mentioned usually change is either driven by financial situations or responses to an event and this plan will hopefully respond accordingly. The handles may be long or short.
