It postulates society as intrinsically alien and harmful infectious to personal culture and then seeks to protect the individual from deleterious social influences by exaggerating his ability to invent his own psychological reactions on a personal or interpersonal level. A review of scales to measure the mother-foetus relationship.

Perceived social support and psychological wellbeing among Nepalese adolescents: the mediating role of self

In the present state of the social sciences, it is imperative that we keep an open mind with respect to the potential utility of conceptual models which have not been subjected to the kind of rigorous verification which we can expect social scientists of the next generation to demand. Flaubert's story of a woman who engages in adulterous affairs in an attempt to escape from a loveless marriage was subjected to heavy censorship at the time it was published, and Flaubert was taken to trial over the novel.
