### De causis plantarum : in three volumes / Theophrastus ; with an English translation by Benedict Eina...

His writings on plants form a counterpart to Aristotle's zoological works. In Books Five and Six he discusses plant breeding; diseases and other

causes of death; and distinctive flavours and odours. Theophrastus of Eresus in Lesbos, born about 370 BCE, is the author of the most important botanical works that have survived from classical antiquity.
