The pyramid is about 220 meters tall, approximately one third taller than the Cheops pyramid. It was approximately 28,4 km to the nearest tarmac from this point but that time we had no idea.

## A Brief History of Montenegro

Although it's a very nice route, the parallel road is probably even more interesting. Although the scenery is dramatic it is fairly domesticated - there are quite a few villages in the valley. There are also numerous options for swimming, kayaking and fishing in the beautiful and calm waters of the Bay of Kotor.

## Balkans Road Trip Part 2: Montenegro, Albania, Macedonia, Bulgaria, Serbia, and Bosnia and Herzegovina

I remember this city because of the Winter Olympic Games, which is probably the first one I remember as a child. I have to say that all the checks were really quick and just a plain formality. This applies all year round.

## Albanians in Montenegro

It was again perfectly prepared, my wife was as wowed and excited as I was. However, after 1455, the Crnojevićs, another noble family from Zeta, became rulers of the country, thus making it the last free monarchy of the Balkans before it was seized by the Ottomans in 1496, and got annexed to the sanjak of Shkodër.
