Heart Disease and Stroke Atlases

Racial Disparities in Hypertension Prevalence and Management: A Crisis Control?

They have been updated to match the accurate numbers in the corresponding PDF. A consequence of this definition appears to be that factors under consideration as potential causes must be plausibly manipulable; they cannot include fixed attributes such as race. Carma Ayala and Linda Schieb are with the Division for Heart Disease and Stroke Prevention, Centers for Disease Control and Prevention, Atlanta, GA.

Racial, ethnic health disparities, already prevalent, growing worse due to COVID

HF in black patients is more likely to stem from hypertension than coronary artery disease, and they are more likely to have HFpEF than whites. Racial and ethnic differences in blood pressure. Racial and ethnic disparities in vaccination coverage among adult populations in the U.

Racial, ethnic health disparities, already prevalent, growing worse due to COVID

NOTE: Population is limited to community-dwelling Medicare beneficiaries ages 65 and older with self-reported Type 1 or Type 2 diabetes.
