### 11 Cool Things You Never Knew about Fireflies

However, all is not lost! The distinct flashing pattern of the synchronous fireflies is difficult to describe and nearly impossible to photograph or catch on film.

### 10 Fascinating Facts About Fireflies and Lightning Bugs

Some species are arboreal, and their larvae hunt tree snails. They Use Their Light Patterns To Attract Mates Each firefly species has its own pattern of light flashing, and males use this pattern to attract females of the same species. Proceedings of the National Academy of Sciences of the United States of America.

### How to Attract Fireflies: 8 Steps (with Pictures)

The biggest fireflies are huge. The article suggests that there maybe fewer fireflies nowadays than in the past because of things like increased use of pesticides and herbicides.

### 11 Cool Things You Never Knew about Fireflies

Some firefly eggs emit a faint glow when disturbed. The genus , usually placed in the of the Lampyrinae, might represent another rather distinct lineage instead.
