## Social Relationships and Health: A Flashpoint for Health Policy

New data collection efforts should go beyond the individual to include data from a range of linked social ties. FISCAL POLICY These are the new tools and institutions that we need to control the growth of private debt in the future.

### Prof Geoffrey Wood

Over the five years that I have been in this job I have put fiscal and financial responsibility at the heart of my approach. For example, work to reduce strains for those who provide care to children, sick or impaired significant others, and the elderly, remaining cognizant of unintended effects on caregivers. The origins of cheaper money: a comment, Economic History Review 42, Summer 1989.

### George Osborne: Mais Lecture

A radical program of public sector reform is not just a fiscal necessity, it is vital if we are to deliver the world class education and welfare services that support a competitive economy. A skeptical view of bank regulation, Journal of Financial Regulation and Compliance 15.

## Social Relationships and Health: A Flashpoint for Health Policy

That can only be achieved through responsible economic, fiscal and monetary policy. It has, rightly, taken on that responsibility — albeit often, sadly, too slowly.

Wood eds , Monetary and exchange rate policy London: Macmillan, 1987.

### George Osborne: Mais Lecture

Free markets under siege, with a commentary by G. Otherwise we are trying to persuade people that we will be virtuous, just not yet - and when you've been as irresponsible as Britain has been, that isn't easy. In the most extreme cases, countries that lose the confidence of markets effectively

lose their sovereignty.

**Prof Geoffrey Wood**

If the Chancellor chooses not to abide by that recommendation he or she will have to explain their reasoning to Parliament, but it would be a brave Chancellor who chose to do so. Social ties may enhance personal control perhaps through social support , and, in turn, personal control is advantageous for health habits, mental health, and physical health ;. Social Support and Health: A Review of Physiological Processes Potentially Underlying Links to Disease Outcomes.
