### New online resource underlines challenges facing northern caribou

For the most up to date and accurate list of species listed under the Species at Risk Act, please see the.

### Species Profile (Woodland Caribou)

Seismic crews could remain into late May, even as the Porcupine caribou herd returns to the Arctic Refuge to give birth. Woodland Caribou in the Southern Mountain population are particularly vulnerable because the subpopulations typically have low numbers, and they are becoming increasingly isolated as a result of habitat fragmentation.

## Northern Caribou

These situations are quickly investigated to determine the cause of mortality.

## A Reflection on First Nations in their Boreal Homelands in Ontario: Between a Rock and a Caribou Smith M A

The second step is the preparation of a draft EIS, which will analyze the environmental effects of the proposed oil and gas leasing and examine a

range of alternatives to the proposal.
