Others are found off the Florida Keys, a chain of cays—small islands situated on a coral reef platform—near the southern coast of the U. The Nevadan belt runs up and down the middle of the North American Cordillera. The two-halves meet at the huge of the Sacramento and San Joaquin Rivers, which along with their tributaries drain the majority of the valley.

Geologic Map of North America

Geological Society of America Bulletin. As you approach the Rapids the country becomes more level, better watered, and the soil more fertile. The climate in the upper part of the country is not so temperate as that of Kentucky, though it lies in the same latitude, which is owing to the neighbouring mountains.
