How Parent Involvement Leads to Student Success

Journal of Education and Practice, Vol 7. What counts is that both parent and child are in a good mood and that the child is very interested in whatever you are talking about. With Quinn now a 20-year-old college student at Columbia University, and Luka, 11, a rising 6th grader, she said her choices worked out well for her family.

School success: Outcomes of early childhood education

Set some time a few days into the semester to observe them and figure out the optimal length of learning sessions, the times that they are most engaged, and what helps

them maintain focus. Moreover, parental monitoring is positively linked to social development, school grades, and school engagement, such as paying attention in class and being motivated to do well in school. A number of early-childhood outcomes contribute to children's eventual school readiness.

Kindergarten is an exciting time of learning and growth, and preparing your child for it early on will go a long way. Studies show that reading to young children aids their literacy development.

Is Your Preschooler Ready for Kindergarten?

It's easiest for students when school expectations match the ones at home, so kids see both environments as safe and caring places that work together as a team.

How to prepare your child for school in a few easy steps

The gap increases when the process involves selective college admission.

Why Act Early if You're Concerned about Development?

Unfortunately, the talk children hear on television, movies or hand-held devices is not optimal.
