## nihongo wo romazi de kaku

This compilation offers many intriguing phenomena that have not been fully treated by Japanese researchers, and even more that receive scarcely passing mention in Japanese studies abroad despite intensive attention on the part of Japanese scholars. How can we use this to our advantage? The problems in air-photography are discussed and the following technical problems are pointed out. Unfortunately, this excellent journal went out of existence in the late 1930s.

## Character Song SOLO SERIES Vol.11

## Context for diet\_kraigoku

After a general discussion in the various fields of cartography, detailed references are made to the meanings and usage of symbols. No article here deals exclusively with social organization of the past or present; one covers folklore, one deals with rural religion, while the remainder apply data of physical anthropology, archaeology, and mythology to questions of origin and prehistoric development. While Japanese culture, viewed historically, prompted research queries and hypotheses, in their attempt to gather relevant data they perceived Japan just as one segment of a much larger cultural reservoir.

[translation] "Kuroko no Basuke" Solo Series Vol. 11 (Kasamatsu)

Volumes are abundantly illustrated and include air photos and colored pictures. There are about 180 sheets covering northern China to the north of Tsinan and Tshingtao , Manchuria, Korea, Sakhalin, and the Kuril Islands. By 1965, 219 sheets had been published and the coverage is now being extended.

**Japanese geography : a guide to Japanese reference and research materials / Robert B. Hall and Toshio Noh.**
