I have had many of my neighbors get involved with watching the rebuild process of our RV many want to buy it now. On residential streets even one crack in the road would shake the RV a TON.

We have rebuilt all of the drawers and associated cabinets. The TROUBLES began the day we left the dealership with it. Each Forest River RV is weighed at the manufacturing facility prior to shipping.

I could not wait for Coachman or RV Value Mart regarding a simple LED to reply since the leak would have damaged the trailer further. THIS LEFT US WITH A NEW RV WITH NO BED. I would love to see the person working in the manufacturing plant who operated the nail gun.

The bathroom smelled like pee all the time and guess what. I had a Jayco and it was made a lot better. Love the concept and design.

This unit seems plagued with multiple failures, and is of POOR QUALITY MANUFACTURE and QC. We purchased new to have a warranty, but let me tell you it is not worth it.
