Inclusion Through Access to Public Space Definition A public space refers to an area or place that is open and accessible to all peoples, regardless of gender, race, ethnicity, age or socio-economic level. We want a city in which public space is central in social interaction among all citizens: a city made for people. Generally speaking, adequate housing, well-connected public transport and accessible public buildings for cultural and religious practices need to be integrated in inclusive urban planning.

### **The Role of the Plaza in Maya Festivals**

Open, free, accessible to all, and financed by public money, these spaces are not only the results of planning, but the consequences of the public practices they hold.
