Psychology + Consciousness — The Innerwork Center

Perception of time changes with alteration of consciousness.

Chapter 5. States of Consciousness

The amount of sleep we get varies across the lifespan. Consciousness is also becoming a new approach in psychology, a new way of looking at behavior, based on systems theory and the holistic method.

Chapter 5: States of Consciousness

Yet another type of property dualism, neutral monist property dualism holds that physical and conscious properties are both dependent on some more basic level of reality. How are our mental states, beliefs, actions, and thinking related to our physical states, bodily functions, and external events, given that the body is physical and the mind is non-physical? Kasina Exercise: These are rhythmic activities used for fixating the impulse to action.

What is Consciousness?

When we are very young, we spend up to 16 hours a day sleeping.
