Ein Bild schreit nach dem nächsten!

To execute his enamel paintings, which he devised in 1999, Markus Weggenmann paints intensely colored small format works on paper, which he scans, to then rework them digitally in terms of form and color. Erste Beachtung erlangte Weggenmann mit seinen ab den späten 1980er Jahren entstehenden Streifenbildern, in denen er der streng konzeptuellen Vorgaben des Streifenmotivs folgend in unterschiedlichsten Kombinationen, Formaten und Variationen Farbbalken aneinander reihte.

This ceramic sculpture, which was finished using the same technique as the varnished paintings, seems as if three of the painterly movements described above had taken on a life of their own.
