This book has clearly been well maintained and looked after thus far. Accessories such as CD, codes, toys, may not be included. In short, Seidman introduces the reader to the three interview series through which a research conducts three separate interviews of the same participant.

## Interviewing as Qualitative Research

The chapter on interview technique is particularly helpful, giving students useful advice on topics like how to avoid asking leading questions.

The text includes principles and methods that can be adapted to a range of interviewing approaches.

## Interviewing as Qualitative Research

Interviewing As Qualitative Research: A Guide for Researchers in Education and the Social Sciences. Its complex yet readable treatment is an essential part of the toolbox for both novice and experienced qualitative interviewers. I think it is a particularly useful text for new researchers who are developing their own standards and procedures.

## Interviewing as Qualitative Research: A Guide for Researchers in Education ...

Perhaps most valuable is Seidman's familiarity with the literature about qualitative interviewing: reading this text gave me several credible referrals to other relevant-if not essential-texts.
