Howard Carter: The Badass Egyptologist Who Found King Tut's Tomb

Best of luck with all that you seek! He, therefore, brought about the period of the Egyptology science. Such a strong association with truth and justice thus gave ostriches a cachet beyond anything they might have enjoyed as a result of their natural characteristics. The sarcophagus contained three gold coffins nested within each other.

Archaeologist Opens King Tut Tomb

In 1905 a bitter dispute erupted between Carter and some wealthy French tourists. But he did not leave Egypt. Their only two daughters were stillborn.

Howard Carter: Before Tutankhamun by Nicholas Reeves

Guards in jellabiyas manned the checkpoints on the entry road, some clutching assault rifles, others rusted shotguns.

TutWatch: The Man Who Found Tut

But this is what makes the ostrich feather fan so revealing.

The Boy Who Found Treasure and the Tomb of Tutankhamun

Or was it actually the tomb of the king for whom I had spent so many years in search? British Egyptologist Howard Carter 1874 - 1939 left stands with his assistant Arthur Callender died 1937 on the steps leading down to the entrance to the tomb of Pharaoh Tutankhamen, better known as King Tut, Valley of the Kings, Thebes, Egypt, 1922. He had begun his career in Egypt at age 17, using his artistic talents to copy wall scenes and inscriptions.
