Neal Adams

This result agrees almost exactly with the previous estimate of 67. The result will of course be different from what is expected.

A new model of the universe (1931 edition)

Why do electrons remain linked with one another, thus constituting an atom? The almost immeasurably small electrons when moving are transformed into lines, and these lines intertwining among themselves create for us the impression of mass, i.

New Model of the Early Universe

And if we imagine time as a circle or as any other closed curve, eternity will signify eternal movement along this curve, eternal repetition, eternal recurrence. They stumbled upon an instance of infinity.

New research of oldest light confirms age of the universe

I would love to be able to hear his thoughts on the last 100 years. Torsion energy is key to understanding this.
