## Kono Yuusha ga Ore Tueee Kuse ni Shinchou sugiru

I have read the first 5 volumes. He gets stronger prison-style, training in a locked room, yet he becomes the strongest in the world in but a few days. Sensei was the prayer machine meant to help spirits like them move on, but he hasn't done so because of either being broken or other restraints such as morality stopping him.

### Shinobu Akamori

The color pages are beautiful and the character designs are pretty nice most of the time. Although Kongo-sensei is not a true Gem and is in fact a machine created by humans, he still has a diamond-like outer shell. But the Hero is so paranoid he needs to destroy the ashes from killed enemies.

### Kongo

While Phos loves him too, Phos starts to doubt him after accidentally hear him calling the unusual Moon Person a name. These cause him great alarm.

### Toko

Apocalypse of truth, More beautifully than the legends Of eternity that begins and ends... Videos TV Size. When angry, he can crack an entire building and his voice is able to shatter the weaker Gems in close range.

### Kongo

The Gems have always had an inkling that Kongo- sensei has a connection to the Lunarians but according to Cinnabar they never discuss it openly

and the Gems simply decided to trust him entirely. The grim setting of Ixphoria is really pushed by how Seiya also treats other humans worse knocking old women unconscious than he did in the first arc threatening shopkeepers.

**BO**

When its familiarity becomes 3.

**Toko**

She lived an easy life in the castle while training.
