Little attention has been paid to utilising sustainable energy sources such as solar power. Decisions, however, continue to be made in ignorance of the changing state of the environment and its implications for human well-being.

**Academy of Management Proceedings**

Taylor and Francis, London Visualization in Landscape and Environmental Planning: technology and Applications. Democracy will have little content, and indeed, will be short lived if we cannot address our socioeconomic problems within an expanding and growing economy. We must expand early childhood educate by supporting an increase in private and public funding; institutionalising it within the ministry and the provincial departments, and raising national awareness of the importance of such programmes.

**GCFI Institute 72**

Typhoid and cholera are similarly endemic in the developing countries. There is, unfortunately, little research available on the rural housing situation and the bantustans.
