### **Northwest Highlands**

The region has a very low population density.

### **Self Catering Gairloch, Isle of Skye and the West Coast of Scotland**

Hope that helps, and if you have further questions as you plan your trip, just let us know. The original distillery was built in Carbost in 1830, but a stillhouse fire destroyed most of the distillery in 1960.

### **Guided Scotland Tours from Edinburgh, Glasgow and Inverness**

There are islands galore, hidden beaches, tide races, great places to enjoy the local seafood and amazing people to meet. A major frustration was to go to Glencoe and be able to spend time only at the visitor centre because we did not have enough time to explore the trails.

### **7 Day/6 Night Tour of North West Highlands and Skye**

Today the tour was definitely about the journey, rather than the destination! Guests get to choose their level of accommodation from hostel to 5-star hotel , whether they tour attractions or not, and most evenings are free so guests can explore on their own. The metamorphic Lewisian Gneiss at the base of this succession forms the ground around the bottom of the mountains. Once in Scotland, you can get around via car, motorhome, bus, train, or via a tour company.

### **Highland Explorer**

Very nice way to get from point A to point B.

### **Highland Explorer**

This is a grassy hilly area that looks a bit like a fairytale land that is the subject of folklore and legends, believed to be the home of the faeries. The drive ends in the Gairloch Area where we have suggested a variety of hikes and outdoor activities, including details of a local fisherman who will

take you out on his boat to pull up lobster creels. Pressed for time, McDonald and I headed south over Kylesku Bridge toward the A837 and backroads to Inverness.

### **Hiking The West Highlands & Isle of Skye**

This suggested Scottish Highlands itinerary covers most of the major sites in both places and should help you choose the best bus tour for you or plan your own independent trip to the Scottish Highlands. We are in our 70s and my husband is 188cm.

### **Skye and North West Highlands Sea Kayaking**

We crossed the dry river and then climbed the bank to the right of the caves.
