Richard Cory is a wealthy man who at the same time was admired and envied by those surrounding him

History of Corby

He was always down to earth when he spoke to them. Although it is not directly stated in the poem as to why everyone is confused about his death, the tone of the poem seems to explain why they are all perplexed by his death.

Certainly in modern times it is common for industrialists, real estate magnates, authors, and patent or copyright holders to become richer than many hereditary heads of state. I think this poem is trying to show is that money is not everything, you may be wealthy but you are lonely and sad or even sick. The entire point of the piece is that, to the townspeople, there is no warning of Richard Cory's distress or impending death.

History of Corby

Early settlement in Corby dates back to the 8th century when a group of Danish invaders, with their leader, Kori, settled there. Most of East Anglia in the 6th — 7th centuries was part of Denmark and Corby was named in the Doomsday Book in 1086AD as Corbei. He seems to be confused that a man, a man everyone wanted to be like, would commit suicide.

History of Corby
