

# Structuring paragraphs - a guide to effective writing

St. Martins Press - 9780312195588

Description: -

- The sentences in a paragraph that reinforce a primary support by supplying additional details or explanation are called secondary supports.
- Secondary supports relate directly to a sentence of primary support and indirectly to the paragraph's controlling idea.
- Most problems in unity occur on the level of secondary support, where it is easy to lose sight of the controlling idea.
- When you choose the secondary supports for your paragraph be sure that they effectively reinforce your sentences of primary support. Do not use secondary supports that simply digress into related areas.
- Even occasional digressions on the level of secondary support can seriously harm the effectiveness of your writing.
- As a writer you must learn to decide how many primary and secondary supports are needed to reinforce the controlling idea of your paragraphs.
- A good rule of thumb is to use three primary supports and two secondary supports for each primary support.

Chaplin, Charlie, -- 1889-1977.
