I would say it works best for 7-10 year olds. Playing with accompaniment encourages good ensemble skills and really brings the pieces to life.

### **Sheet music: Cello Accompaniment 1 (Cello)**

Contains all the piano accompaniments for Cello Time Sprinters the cello duets are unaccompanied and so printed in the cello book only.

### **Sheet music: Cello Accompaniment 1 (Cello)**

Mary Cohen has teamed up with British cellist William Bruce, who is a passionate and experienced music educator to produce a book full of fun and varied activities in well-sequenced lessons that will stimulate the young player. The CD contains all the piano accompaniments while the accompaniment book contains cello duet parts as well as piano parts. Accompaniment recordings are not new in music teaching circles.

## **Superstart Cello : The Complete Method, Book & CD (Paperback)**

Rhythmic patterns and values are introduced using words, which may not suit teachers with more traditional teaching styles. The book also presents initial warm-up exercises and practice tips.
