## Surface measurement of planed and moulded timber products

A significant investment for the company, this finger-jointing machine significantly reduces wasted offcuts by turning them into usable timber products while at the same time, increasing production capacity.

## AQA

It is provided for historical reference only and should not be relied on as a valid representation of Revenue's current guidance. Established in 1990 as a sawmill supplying wet off-saw products, Somerset Timbers has grown in response to the market call for quality and cost-effective timber products supplied with care and professionalism, and we now supply the construction industry and retail customers country-wide. Paper and board printing processes Content Potential links to maths and science Students should be aware of the different types of printing processes and their suitability for specific products and scales of production.

## English

Accoya® Wood Ireland's Official Distributor Hardwood Decking Durable and Beautiful Responsibly Sourced Timber WoodEx® Premium quality engineered hardwood and softwood timber products Important — Collections With your safety in mind all orders must be placed in advance and for cash sales placed and paid for in advance. We can run any of our numerous existing profiles or duplicate and create custom profiles from a supplied sample or drawing. Finger Joint Plant Utilizes kiln dried industrial timber to produce structural graded timber.

## High Resolution Inkjet Printer to Mark Timber Length and Grade marking

Parts and service are available through the Wood-Mizer worldwide distribution network. Students should develop the skills to critically assess products and develop new design proposals. Our skilled laminating division uses our range of laminating machines with specialist glues to manufacture laminated beams and posts, shelving and countertops, balustrading and stair treads.

## **Timber**

Once wrapped the packs are stored in our sheds on site to maintain excellent condition of goods. All this pine is plantation grown and part of a 15-20 year cycle.
