Social

Based on our review of the literature, the following topics are promising directions that have emerged in the field or are areas in which further research is needed to build conclusive evidence. Parental depressive symptoms were measured with the Mental Health Index—5, a 5-item screening tool that has an area under the receiver operating characteristic curve of 0.

Emerging Issues in School, Family, & Community Connections

Standardized screening tools exist, and some states require medical providers to administer them as part of the Early Periodic Screening, Diagnosis, and Treatment program. In 2016, were living in families in which no parent had regular, full-time employment.

Preschool is for Real

These discussions will further the development of a common language and vision of what constitutes a successful school.

Emerging Issues in School, Family, & Community Connections

Expectations may also vary by context. Play is the primary way to learn. Black and non-English speaking Hispanic children tend to grow up in isolated neighborhoods of concentrated poverty, and many black children live in those conditions over multiple generations.

Social

Specifically, research is needed on how educators can receive support and develop skills that foster involvement in the classroom, at the school, and at home with positive results for children, families, the school, and the community.

Early Education Gaps by Social Class and Race Start U.S. Children Out on Unequal Footing: A Summary of the Major Findings in Inequalities at the Starting Gate

Developing Process-Based Approaches to Make Connections The research on family and community connections with schools has generally emphasized formal and programmatic approaches to connections. The Web site describes the organization, its public policies, information about conferences and publications, position statements on early childhood issues and research, and access to membership and accreditation. In 2017, and were living below the poverty threshold.

Social

They suggest that the body of empirical work on homework help might be strengthened by more theoretically grounded research focused specifically on the content, processes, and outcomes of parents involvement in homework.

Issues and Trends in Early Childhood Education, Review questions and definitions

The state is funding the program with reallocated federal child care money. Also, although there are a growing number of schools offering school-based social services, these services are often disconnected from the schools curriculum, core services, and programs.
