The emphasis on rationality and efficiency ultimately has negative effects when taken to its conclusion. In this way, there is a danger that some civil society organisations may find themselves used instrumentally to facilitate top-down representation of specific interests. Horticultural societies formed in areas where rainfall and other conditions provided fertile soils to grow stable crops with simple hand tools.

Global Civil Society

It is not hard to imagine that male circumcision, for example, might come to be regarded as genital mutilation imposed on a helpless child by Jewish or Muslim parents and thus outlawed as a form of physical abuse. People in peripheral geographical areas and in marginalised sections of society are especially deprived of recognition, voice and influence in most contexts of global governance as it is currently practised.

Social Change in the Society

And, above all, there are both print and electronic media. The tangible result is that there are conflicts and tensions among the different civil societies. ADVERTISEMENTS: The principle of transparency claims that the public administration must disclose all the financial activities to the general public.

20.1 Understanding Social Change

New York, NY: Harper and Row. This type of civil society does not serve the real purpose of the people. As noted above, its focus on personal happiness as the central criteria for the moral status of an action gives it a strong utilitarian bent, and in the matter of IVF this can mean that the sole focus of ethical concern is the happiness that a child will bring to the couple.

Civil Society: Nature, Role and Problems

Ethics of Life and Death. Yet modernization also has a downside, as we will see in this section and in the later discussion of the environment.

Civil Society: Nature, Role and Problems

Even though there is an increased level of individual autonomy — the development of unique personalities and the opportunity to pursue individualized interests — society has a tendency to cohere because everyone depends on everyone else. Changing conditions and adaptations also led some societies to rely on the domestication of animals where circumstances permitted.
