## Resource Conservation and Recovery Act (RCRA) Laws and Regulations

## Maktabat al

List your most promising options and evaluate them in terms of feasibility and how they align with your goals. Concerns have been raised about the ability of modern health-care facilities to inactivate microbiologic wastes on-site, given that many of these institutions have decommissioned their laboratory autoclaves.

## Homeless Encampment Reference Guide

The reference does not address the medical, social and political issues that are associated with homeless encampments, nor does it discuss how all of the issues can be incorporated into the overall management of homeless encampments. Medical Waste and CJD Concerns also have been raised about the need for special handling and treatment procedures for wastes generated during the care of patients with CJD or other transmissible spongiform encephalopathies TSEs.
