Population Change and Development in Korea

A main source of rising income inequality in South Korea is an acute dichotomy between large conglomerates LCs and small- and medium-sized enterprises SMEs in terms of size, productivity, salaries and the composition of regular versus non-regular workers. This includes a country brand logo.

South Korea's choice between prosperity and democracy

Non-regular workers are much more prevalent in SMEs compared with LCs, another factor contributing to income inequality.

South Korea: Finding its place on the world stage

But a more concentrated effort specifically around South Korean design is called for. Unemployment rate rose by 1. South Korea sends a higher proportion of students to tertiary education than any other country, according to the United Nations Educational, Scientific and Cultural Organization, and they do conspicuously well on international math and science tests.

South Korea's Economy at the Crossroads

The major driving force for fertility transition was poor family living conditions.

South Korea: A Stunning Success Story

While we know to within a few months when the crisis began, today we can only speculate on how long it will continue. It is the 12th largest to be precise. The closest European equivalent is Italy, which was threatened for several centuries by neighboring Austria, France, and Spain.

How Did South Korea's Economy Develop So Quickly?

Yose also teaches International Economics courses at the Faculty of Economics, University of Indonesia, his alma mater. In many parts of the globe, aspiring entrepreneurs, willing to work hard and full of ideas and energy, start out against a stacked deck because they lack political or family connections. Second, South Korea has devoted extra attention to technology development and innovation to promote growth.

Global Economic Prospects, June 2015 : The Global Economy in Transition

Indonesia is nearing an agreement with the IMF that, if rigorously adhered to, will strengthen the rupiah and financial stability, while at the same time putting in place a series of structural reforms -- including in the financial sector -- that are needed to begin restoring the health of the economy and investor confidence in it.

South Korea economy to rebound strongly in 2021

If South Korea is to achieve balanced, sustainable growth, it must also place greater emphasis on its labor-intensive services sector.
