## Myanmar: From political crisis, to ‘multi

It was named Burma, after the dominant ethnic group who makes up 68 percent of the population. Why did the military overthrow the Myanmar government? According to the political scientist Francis Fukuyama, the international landscape has experienced two distinctive changes during the second decade of the 21st century: the upsurge of populism and illiberalism in many liberal countries; and the resurgence of authoritarian powers in different parts of the world.
