State by State Grandparents Guide to Custody and Visitation

State by State Grandparent Custody and Visitation Rights Overview Since custody and visitation statutes are different state by state, there are different considerations that grandparents should be aware of depending on what state court they are dealing with. For the average person, the anti-adoption movement is unfathomable, comparable to a movement against puppies or rainbows or ice cream.

Choosing Therapy for Adopted Children and Youth

Adoption cuts off grandparental visitation rights unless the adoption has been granted to a step-parent or another grandparent. Maine A Maine court may award visitation rights if at least one of the child's parents is deceased, visitation is deemed to be in the child's best interest, and visitation would not interfere significantly with the relationship between the child and their living parent. Important: A new law allows that, when the existing parents and the adoptive parents all agree, the rights of the existing parents do not have to end.

State Parent Advocacy Groups

Adoption Is Obvious As the Better Alternative While the debate between pro-life and pro-choice wields points on each side, when adoption is an alternative to abortion, it is always the better choice.

Adoption

No parent, child, or teacher would ever choose a public place like school to be a source of misunderstanding, misinformation, embarrassment, or pain for a child. Legal guardians can be extended family members like grandparents, older siblings, aunts, and uncles. Continue raising your child yourself DCJ has a range of that offer parenting support, day care services and accommodation, to help you care for and raise your child.

Alternatives to step

Adoption cuts off the visitation rights of grandparents unless the adoption is granted to a step-parent or another grandparent. Since lawmakers in each state approach family law differently, there is little to no uniformity in these laws from state to state. There is no concrete guideline for when a child is old enough, so the courts make those determinations on a case by case basis.

Alternatives to adoption

However, there is no reason to believe that adoption is the only — or the best — way to take care of children in need of care outside their families.
