A prototype web-based networked environment was built that allowed each student a personal space with their profile, access to resources and a group-project work space. The site allowed for both synchronized and asynchronous communication via messaging and chat facilities. Analysis of the Concepts Whole, Differentiation, and Unity Index to Resolving Social Conflicts Index to Field Theory in Social Science When the intellectual history of the twentieth century is written, Kurt Lewin will surely be counted as one of those few men whose work changed fundamentally the course of social science in its most critical period of development.
