Priorities and challenges for health leadership and workforce management globally: a rapid review

School districts must administer one or more instruments in the first thirty days of the school year and repeat, if indicated, at midyear and at the end of the school year. Prescribe a minimum course of study in the common schools, minimum competency requirements for the promotion of pupils from the third grade and minimum course of study and competency requirements for the promotion of pupils from the eighth grade.

### **Priorities and challenges for health leadership and workforce management globally: a rapid review**

Thirteen participants who represented a diverse selection of community leaders and employees were interviewed because saturation occurred quicker than expected.

### **Organization development and change**

A career technical education district that overestimated its student count shall revise its budget before May 15. This section further provides the steps that must be taken once a district is declared to be in a state of emergency.

### **Teaching students to think critically (opinion)**

Currently, 2018 is the only year of data available to determine the number of unsatisfactory schools.
