Selections are thematically organized, including topics such as the major approaches to the spiritual path, meditation and other practices, Buddhist ethics, tantric practice, and the role of the teacher. Thirty of the most creative, eloquent, and energetic Tibetan Buddhist teachers of Westerners in recent decades are featured in this collection of teachings that are certain to be highly treasured by all students of Buddhism. I liked that there were

a variety of voices presented, so it became a way for me to both learn about the topics and discover new authors to explore later.
