He doesn't distinguish between facts and anecdotes and the author always lets his prejudices get in the way of narrative. Unlike other public servants - in the army for instance - parliamentary councillors were expected to hold themselves aloof from their fellow townsmen and to abstain from unnecessary social activities lest they be corrupted by bribery or otherwise in the discharge of their office. For the rest they were geniuses of tremendous accomplishment marked off from the majority of their gifted fellowmen only by an irresistible impulse to do mathematics.

## No. 2376: MEN OF MATHEMATICS

It would be impossible to describe all the work of even the least prolific of the men considered, nor would it be profitable in an account for the general reader to attempt to do so. This is one of the ones I keep on my shelf for easy access rather than in a box in the closet. AN IRISH TRAGEDY Hamilton 1805-1865 Ireland's greatest.
