It will be interesting to see how our healthcare system changes as the political climate changes, but in the meantime the only thing I want from the US medical system is to stay the heck out of it!!!! There are two ways to look at reality and they are mutually exclusive : matter creates life, consciousness and self-consciousness, or consciousness and life create matter. Gerber combines the latest scientific evidence with case studies of real patients who have benefited in specific ways from vibrational remedies, and where vibrational approaches exceed the results of traditional western techniques.
