Suicide patterns and association with predictors among Rhode Island public high school students: A latent class analysis.

The development of adolescent thinking : some views for effective schools (Book, 1983) [spaceneb.us.to]

Much of the research suggests that there is more mismatch than match, which partly explains why school transitions can be challenging for many students.

The Five Attributes of Successful Schools (Opinion)

First is self-concept: the set of beliefs one has about oneself. The fifth, FAMILY AND COMMUNITY PARTNERSHIPS, echoes the currently widespread call for increased family and community participation in the education of youth that comes from government, parent and teacher organizations, foundations, and businesses. This requires being knowledgeable both about the risks of a particular behavior and about that adolescent and being able to listen and respond to the adolescent without being dogmatic.

The development of adolescent thinking : some views for effective schools (Book, 1983) [spaceneb.us.to]

Peers provide feedback so the adolescent can experience the consequences of trial behaviors and develop a comfortable, stable identity.

Top five qualities of effective teachers, according to students

In other words, giving young people the opportunity to learn in ways that emphasize different types of abilities increases their chances of success.
