

# Golden jubilee of the International Society for Soil Mechanics and FoundationEngineering - commemorative volume.

**Institution of Engineers, Australia - Improvement of design method of rock**

Description: -

Bruhns, Nicolaus.

Syllogism

Russian language -- Old Russian

Stevens County (Wash.) -- Antiquities

Franklin D. Roosevelt Lake Region (Wash.) -- Antiquities

Deadhorse Site (Wash.)

Excavations (Archaeology) -- Washington (State) -- Stevens County

Excavations (Archaeology) -- Washington (State) -- Franklin D.

Roosevelt Lake Region

Indians of North America -- Washington (State) -- Stevens County -

- Antiquities

Indians of North America -- Washington (State) -- Franklin D.

Roosevelt Lake Region -- Antiquities

Prices -- Soviet Union.

Prices.

Visitations, Ecclesiastical -- England.

Church of England -- Early works to 1800.

Photography, Architectural -- New York (N.Y.)

Flatiron Building (New York, N.Y.) -- Pictorial works.

England -- Fiction.

History teachers -- Fiction.

Deene, Carolus (Fictitious character) -- Fiction.

Salt.

Religious poetry, French -- 18th century -- History and criticism

Pompignan, Jean-Jacques Lefranc, -- marquis de, -- 1709-1784 --

Criticism and interpretation.

Atmosphere.

Microclimatology.

Drugs -- Dose-response relationship -- Congresses.

Veneto, Italy -- History.

Trentino-Alto Adige, Italy -- History.

Friuli-Venezia Giulia -- History.

German language -- Italy -- History.

Germans in Veneto, Italy -- History.

Germans in Trentino-Alto Adige, Italy -- History.

Germans in Friuli-Venezia Giulia -- History.

Soil mechanics.Golden jubilee of the International Society for Soil

Mechanics and FoundationEngineering - commemorative volume.

-Golden jubilee of the International Society for Soil Mechanics and FoundationEngineering - commemorative volume.

Notes: Bibliographies.

This edition was published in 1986

## Secondary compression in the shear of clays

On Soils and Earth Structures in Arid Climates, Adelaide, 1970, IE Aust. The engineering geology of weak rock.

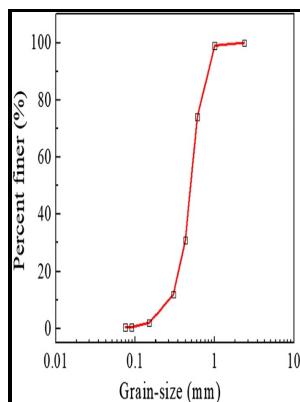

Geologist Grade 1 1951 Routine engineering geological investigations during the planning of hydroelectric works.

## Golden jubilee of the international society for soil mechanics and foundation engineering: commemorative volume

Australian National Committee on Large Dame, Bulletin No.

## Improvement of design method of rock

If this mass had moved in such a slide it

Filesize: 39.82 MB

would have been so disrupted that the mining would not have been possible. Director 1974 , Responsible for direction of geotechnical investigations for major civil engineering and mining projects. It interests us because of its suitability or unsuitability of view the most important

characteristics of foundations represented by the bearing capacity.

### **Improvement of design method of rock**

Axial load transfer behavior of rock socketed shafts.

### **The effect of increasing strength with depth on the bearing capacity of clays**

Elastic solutions for the design and analysis of rock-socketed piles.

### **Improvement of design method of rock**

Associate Director 1971 , Founder of Adelaide Office 1970 1964 - 1970 Department of Mines, South Australia.

### **Moisture flow and equilibria in unsaturated soils for shallow foundations**

End bearing capacity of drilled shafts in rock.

### **The effect of increasing strength with depth on the bearing capacity of clays**

I now have doubts about this, but further study is recommended. The bearing capacity of rigid strip footings is shown to depend markedly on the breadth, and to a small extent on the roughness of the underside of the footing. H, 1976: Geological Hazards and Water Storage.
