Notes: Cover-title.  
This edition was published in 1913

Filesize: 37.85 MB

It is readily recognized by its thicket-forming habit, milky sap, compound leaves, and dense, terminal panicles of bright red drupes. More sun exposure will give their leaves a scrunched up look and less sun will flatten out their leaves.

## 16 Indoor Hanging Plants to Decorate Your Home

Smaller specimens can be grown in containers. In summer months, little spikes of blue, purple, pink or white flowers will appear.

## Irish Wildflowers

In this video, Steven Fletcher of gives his three golden rules when caring for them, to keep them healthy and ensure fantastic feathery foliage.

## Diarmaid Gavin's top 30 plants to bring your garden to life

The example of this fern is the Cloverleaf. These are the fiddleheads, so-called because the very tops—furled tight when young—look like the tuning end of a fiddle.

## Over 100 native Irish plants are endangered, including these well

Cut back hard to stop it sprawling. They need an adequate water and sufficient humidity.
