based distinction between sets of structured metadata specifically about Elements or Concepts and sets of structured metadata about all other sorts of things in the world here called Datasets. This number generally represents a published item that will be found in many libraries.

## LibraryWorld

A series may be analyzed whether it is classed-together or classed separately; a classed separately series must be analyzed. In theory, each published book or music CD, or DVD, or other library resource will have one record in with an OCLC number. The Serials Department is responsible for all functions related to obtaining and making serials available in the Library.
