He became an Associate Professor in 1933 Shōwa 8 ; and in that same year, he published the first book length study of to appear in Japanese. We should like to point out here simply that the traditional literature of Japan had deep roots in Meiji literature. In the first half of Meiji, literary style was not very different from that of the Edo Period, and at the beginning, the style of the late Edo lower order fiction writers and the translation of European literature in Chinese style prevailed.

Yet such activities were primarily for political objectives, and even though the value of literature was recognized, its autonomy was not allowed, and it was considered merely as one of the roads to national cultural achievement. Naturally, it was too much to expect foreigners to undertake translations of contemporary literary works.

But these were small news- papers, mainly for announcements and entertainment, and they did not carry political discussion columns which were the breed- ing ground of literature.

### **Manufacturing That Takes Nature into Account: The Shape of Nature Technology**

In early Meiji the ukiyoe woodblock prints of the previous era prevailed, but various aspects of the Enlightenment became the subject of color prints and began to be sold ; this movement extended into the realm of illustrations, and such men as H5ki and Kiyochika particularly distinguished themselves.
