South African public sector procurement and corruption: Inseparable twins?

The findings of this study therefore have important implications for policy. The coronavirus pandemic overturned assumptions about the development of the global economy and destroyed any hope of steady growth. The global e-book market is fragmented with many independent authors and publishers, while certain players account for a majority share in the market.

Energy use by sector

These findings support the notion that the perception of corruption in local government departments such as traffic and municipal policing is high. Recent scandals surfacing since 2016 involving former South African President have drawn attention to corruption in South Africa. Other essentials include access to robust markets that could absorb the higher level of agricultural output, a solid postharvest value chain for the output of farmers, and programs to train them in best practices so that they can raise productivity.

Corruption in South Africa

Other 4IR technologies are also having impact. Zuma's preferential treatment of the Gupta family and the involvement of Jacob Zuma's son and the Gupta family. In this article, we define infrastructure investments as telecoms mobile, fixed, and broadband ; energy power generation, transmission, and distribution, as well as the transmission and distribution of natural gas ; transportation airports, ports, road, rail ; water and waste water distribution, desalination, and waste treatment ; and social hospitals, housing, schools, and prisons.

In 2017, the in Africa amounted to almost 45 billion U.

Ethiopia Economic Update: Reform Imperatives for Ethiopia's Services Sector

For example, with fintech, digitization has gone beyond the financial sector to affect the real sector and households, transforming product designs and business models across market segments. China continues to play a pivotal role in both Africa and Latin America as a trade partner, investment facilitator and financial backer.
