An overview of the Scottish education system

Level 6 qualifications are at a level equivalent to bachelor's degrees with honours, graduate certificates and graduate diplomas.

Career and education framework for cancer nursing

Scotland fully embraces the importance of social enterprises in the modern world, which provide a dynamic, ethical and more sustainable way of doing business. The Primary measures included in the National Improvement Framework for Scottish Education and the National Performance Framework are based on a calculation derived from combining the P1, P4 and P7 data. Learning at this level involves the demonstration of high-level specialist professional knowledge and is appropriate for senior professionals and managers.

An overview of the Scottish education system

The tool will be used to analyse the data provided on achievement of a Curriculum for Excellence level for children and young people and is intended to support professional dialogue between local authorities and schools so they might learn from each other to improve learner outcomes. It will give them opportunities to see and experience different jobs.

Standards framework for nursing and midwifery education

Lower levels file alphabetically: Q for level 2, R for level 1 and S for entry level. Originally, the framework only went up to Level 5, but in 2004 the old Level 4 was subdivided into Levels 4, 5 and 6 and the old Level 5 was subdivided into Level 7 and Level 8.

National Improvement Framework

Holder can critically analyse, interpret and evaluate complex information, concepts and ideas.
