### Demography and Census reports

Results from community assessments help decision-makers redirect program efforts to communities as needed to facilitate development of disease intervention strategies. En 1971 et 1976, on demandait aux recenseurs d'indiquer la première langue parlée et encore comprise tandis qu'en 1981, on leur demandait d'inscrire la première langue apprise et encore comprise.

### A bias in estimating urban population density functions

Une autre série de 36 bulletins n°s 95-905 à 95-940 renferme des renseignements recueillis auprès de toute la population. This would follow the general pattern that has been observed over the censuses since 1871 of a gradual reduction in the size of the subdistricts due to the corresponding rise in population.
