Environmental Justice and Sustainability in the Former Soviet Union

We see from this that the notion of overpopulation has no basis in fact.

Marshall Goldman

Upper-division undergraduate through professional collections. Consistently adhered to, it is explicit idolatry.

Goldman, Marshall I. [WorldCat Identities]

Goldman traces how this has come to be and how Russia is using its oil-based power as a lever in world politics.

Environmentalism: A Modern Idolatry

Yet, hopefully, Goldman points to a number of beneficial state controls which if enlarged in the direction of restoring and protecting natural resources could have made Russia the most powerful and efficient of conservationists.
